Executive Summary

This guide provides only a short summary and analysis of the many provisions in the bill. To obtain a complete understanding of any particular provision, users are encouraged to review the actual legislative language. The bill and accompanying report are available on the NGB-LL web page at [HTTP://WWW.NG.MIL/LL/](http://www.ng.mil/LL/)

Current Status: On 15 December, House and Senate Appropriators agreed to place nine outstanding Fiscal Year 2012 Appropriations bill into one omnibus spending package. The vehicle for the Omnibus bill is the Conference Report for the Military Construction Appropriations Act, the only bill that was previously passed by both the House and Senate. Along with the Military Construction and Defense Appropriations bills, the omnibus includes seven other bills.

Key Provisions: Overall, the law funds the Department of Defense below the President's request. Most National Guard accounts are funded slightly below the requested levels; however, the reductions are proportionate to overall budget cuts. The law includes a number of important and positive provisions for the National Guard.

- **NGREA:** The law provides \$1 billion for the National Guard and Reserve equipment account. Of that amount, \$325 million is for the Army National Guard, and \$315 million is for the Air National Guard.
- **AESA Radar:** The law provides an additional \$47.2 million in Air Force Procurement for AESA Radar for ANG F-15's.
- **Counter Drug Program:** The law provides an additional \$50 million above the President's request for National Guard Counter-Drug State Plans.
- **National Guard Aviation:** The House Committee Report requires the Secretary of Defense to submit a comprehensive report on the future plan for National Guard aviation.
- **C-27J Aircraft:** The law fully funds the request for nine C-27J aircraft. The Senate Committee report warns that the current C-27J beddown plan is "highly uneconomical and inefficient, providing too few aircraft to adequately support crew proficiency, operational readiness, and infrastructure investment."

On the following pages, you will find a detailed analysis of the Fiscal Year 2012 Defense Appropriations and Military Construction bills.

Joint Programs

Youth Challenge – The law provides an **additional \$5 million** in Defense-Wide O&M for the Youth ChalleNGe program.

STARBASE – The law provides an **additional \$5 million** in Defense-Wide O&M for the STARBASE Youth program.

Counter-Drug – The law provide \$229.7 million for National Guard Counter-Drug Program State Plans. This is **\$50 million above** the President's Request of \$179.7million.

Other Provisions

PAY INCREASE – The law would increase military pay by 1.6% effective January 1, 2012.

NATIONAL GUARD AND RESERVE EQUIPMENT ACCOUNT – This funding will allow the Guard and reserve components to procure high priority equipment that may be used by these units for both their combat missions and their missions in support of State governors. The conferees direct that the National Guard and Reserve Equipment account shall be executed by the Chiefs of the National Guard and reserve components with priority consideration given to the following items:

AB-FIST Gunnery Trainer Upgrades; Active Noise Cancellation Systems for ANG C-130; ANG Block 42 F-16 Engine Upgrades; ARC 210 Radios for ANG F-16s; Batteries and Battery Support Equipment; Bradley Modifications; C-130 Loadmaster Lookout Windows and Crashworthy Loadmaster Seats; C-130 Secure Line of Sight and Beyond Line of Sight Capability; CH-47 Door Gun Mounts; Chemical/Biological Protective Shelter; Civil Support Radios; Combined Arms Virtual Trainers; Command Posts - Tactical Operations Centers and Standardized Integrated Command Post Systems; Communications Aerial Platforms; External and Internal Fuel Tanks; F-15 Active Electronically Scanned Array Radars; Field Engineering, Logistics, and Maintenance Equipment; General Engineering Equipment; Generation 4 Advanced Targeting Pods; HC-130 Integrated EW Suites (ALQ-213) with VECTS; Helicopter Firefighting Equipment; Helmet Mounted Cueing Systems; HMMWV Ambulances; Homeland Defense Communications Equipment; Integrated Vehicle Health Management Systems; Joint Threat Emitters; Large Aircraft Infrared Countermeasures; Light Utility Helicopters; Lightweight Airborne Recovery Systems; LITENING Upgrades; MRAP Vehicle Virtual Trainers; Personal Protective Equipment and Weapons; Reduced Size Crashworthy External and Extended Range Fuel Systems (RCEFS) for Apaches and Chinooks; Remotely Operated Video Enhanced Receivers; SATCOM Ground Stations; Security Force Mobility Bag Upgrades; Self-Contained Live Fire Shooting Ranges; Shadow Tactical Unmanned Aircraft Systems; Simulation Training Systems; Tactical Communications Equipment; Tactical Radios; Tactical Trailers; Thermal Imaging Systems; Unit Maintenance Aerial Recovery Kits; Virtual Convoy Operations Trainers; Virtual Door Gunner Trainers; and Wideband Imagery Dissemination. (Joint Explanatory Statement)

BONUSES - The Committee believes the request for bonuses for the Army, Air Force, Army Reserve, Navy Reserve, Marine Corps Reserve, and Army National Guard is overstated. Given these components have achieved their overall recruiting and retention goals and are above budgeted end strength levels for fiscal year 2011, the Committee reduces funding for bonuses to keep the services at fiscal year 2011 levels. (Senate Report 112-77)

IMPROVED BUDGET PROCESSES FOR RESERVE COMPONENTS - The Committee is concerned that the Reserve components continually realign significant amounts of funding between program lines during the year of execution since the account was consolidated into one budget authority in fiscal year 2006. Several of the Reserve components, most notably the Army Reserve and Air National Guard, consistently do not request funds in the budget lines where they plan to spend it. For this reason, they are unable to justify the budget request as submitted to Congress. The Committee urges the Reserve components to submit future year budgets that are more closely aligned with recent spending patterns. Additionally, the Committee reinstates its requirement for the Department to submit a semi-annual detailed report of internal reprogramming actions within the Reserve components' budget authorities, similar to the reports provided in fiscal years 2006 through 2008. Reports shall be submitted 30 days following the end of the second quarter and 30 days following the end of the fiscal year. (Senate Report 112-77)

YELLOW RIBBON REINTEGRATION SUICIDE HOTLINE PROGRAM - The Committee recognizes the importance and success of existing peer to-peer hotline services in improving mental health and suicide prevention and strongly encourages the National Guard Bureau to expand the peer-to-peer mental health and suicide prevention hotline network nationwide. (Senate Report 112-77)

PACIFIC REGIONAL BIOCONTAINMENT LAB — The Committee is aware of the importance of a Pacific Regional Biocontainment Lab to support the bio-containment requirements and diagnosis of infectious diseases for Defense, Federal and State agencies. The Committee understands that there are significant opportunities for inter-agency use of this Lab and expects the National Guard to move forward with this important project. (Senate Report 112-77)

ADVANCE TRAUMA TRAINING PROGRAM FOR NATIONAL GUARD HOMELAND RESPONSE FORCES [HRFs]—The Committee recognizes the valuable support universities, hospitals and other military partners provide in implementing the emergency response trauma training requirements to start up Homeland Response Forces [HRFs] initiated in the 2010 Quadrennial Defense Review [QDR]. The Committee encourages the National Guard to continue working with these partners as the Guard converts Chemical, Biological, Radiological and Nuclear [CBRNE] Enhanced Response Force Packages to HRFs and to ensure our National Guard medical professionals have the best training possible so they are prepared to respond to emergency situations here and abroad. (Senate Report 112-77)

GLOBAL SECURITY CONTINGENCY FUND - The fiscal year 2012 President's budget request includes new authorities to establish an account for the Department of State and the Department of Defense to work in concert in responding to emergent crises around the globe that require military and other security assistance. The Committee notes that this new account was requested under the Department of State, including the ability to transfer Department of Defense funds into the account. In addition, the Department of Defense submitted a legislative proposal to be considered in the Fiscal Year 2012 National Defense Authorization Act. The Committee notes that no request was made to the Subcommittees on Defense of the Committees on Appropriations of the House and Senate even though this proposal would permit the Department of Defense to transfer up to \$400,000,000 of Department of Defense funds to the Global Security Contingency Fund. The Committee was notified that the Department of Defense would take corrective actions and formally request the Committee's consideration for granting this authority to the Department. To date, no formal request has been received. Therefore, the Committee has included a general provision on the Global Security Contingency Fund which restricts the Department of Defense from obligating any funds under section 1206 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109-163; 119 Stat. 3456; relating to program to build the capacity of foreign military forces) until the Department of Defense formally submits a request, with accompanying detailed justification, for authority to transfer funds to the Global Security Contingency Fund to the Subcommittees on Defense of the Committees on Appropriations of the House and Senate. (Senate Report 112-77)

C-130J ADVANCE PROCUREMENT [AP] - The fiscal year 2012 budget request did not include any advance procurement funding for the C-130J program. The Committee is concerned that the lack of advance procurement funding will cause a negative production impact that will result in delays in future aircraft deliveries. Therefore, the Committee recommends an additional \$120,000,000 in advance procurement funding for the 12 C-130J aircraft planned for procurement in fiscal year 2013. (Senate Report 112-77)

C-27J - The Committee acknowledges that the current C-27J basing plan calls for just four aircraft at each of the selected Air National Guard bases. The current plan provides a wide geographical dispersion; but four aircraft per base is highly uneconomical and inefficient, providing too few aircraft to adequately support crew proficiency, operational readiness, and infrastructure investment. Planned contingency deployments will further exacerbate these shortfalls and diminish the National Guard's capability to respond to domestic emergencies. The Committee recommends full funding for nine aircraft in fiscal year 2012 and encourages the Department of Defense to continue procuring these aircraft in fiscal year 2013 and beyond. The Committee further supports keeping the C-27J fleet under the purview of the Air National Guard. (Senate Report 112-77)

NATIONAL GUARD AVIATION - The Committee is concerned that the Department of Defense has failed to adequately consider the role of the National Guard in its long term plans for the procurement and stationing of both fixedwing and rotary-wing aviation assets. The Committee is aware that a combination of factors, including delays in the Joint Strike Fighter program, aircraft retirements, base realignment and closure actions, individual aircraft reassignments, and decisions such as the truncation of C-27 Joint Cargo Aircraft acquisition, render uncertain the futures of various Guard aviation units and call into question the commitment of the Department and the Services to ensure that National Guard aviation remains an integral component of the national security and homeland defense strategies. **The Committee therefore directs the Secretary of Defense, in coordination with the Secretaries of the Army and Air Force and the Chief of the National Guard Bureau, to submit not later than 180 days after enactment of this Act a report regarding the Department's future plans for National Guard aviation.** This report shall include, but not be limited to, the present laydown of Guard aviation assets and units, projected retirement or divestiture dates for aircraft assigned to Guard units, projected delivery and initial operational capability dates for new aircraft that will be assigned to Guard units, and the identification of unique or preponderant aviation skill sets and mission capabilities within the Guard. (House Report 112-110)

NATIONAL GUARD COUNTER-DRUG PROGRAM - The Committee's recommendation includes an additional \$50,000,000 to fund State-level plans for National Guard activities under Section 112 of Title 32, United States Code, and **directs the Secretary of Defense to submit an expenditure and execution plan for the additional funds not later than 60 days after enactment of this Act and prior to transfer or obligation.** The Department of Defense consistently has failed to provide adequate resources for State plans in its budget requests. Congress repeatedly has demonstrated its recognition of the value that National Guard capabilities bring to counter-drug efforts while simultaneously providing training and operational experience for Guard personnel. The Committee also notes that the Department has underfunded the five regional counter-drug schools, in the expectation that Congress will fund the difference via directed spending items. The Committee urges the Secretary of Defense to budget adequate resources for both State plans and counter-drug schools to ensure that federal counter-drug policy goals are met. (House Report 112-110)

UNOBLIGATED BALANCES - Since 1981, the Committee has recommended support to the Reserve components by addressing equipment shortfalls through the National Guard and Reserve Equipment Account [NGREA]. The committee understands how vital NGREA funding has been for filling the substantial backlog of equipment needs. **Last year, the Committee expressed concern that several of the Reserve components had a sizable amount of unobligated funds from past fiscal years. The Committee notes that the Army Reserve, Army National Guard, and Air National Guard have all improved their NGREA obligation rates and brought them in line with Department-wide procurement standards.** The Committee remains concerned about the obligation rates for the Navy Reserve, Marine Corps Reserve, and Air Force Reserve and encourages these components to continue working to improve management of this account. (Senate Report 112-77)

Military Construction Appropriations

House Report 112-94

Energy Security — The Committee strongly encourages the Army National Guard to increase the energy security and environmental sustainability of its operations to reduce costs and protect mission continuity. The Committee encourages the Army National Guard to establish at least one pilot facility for the purpose of demonstrating the integration of advanced energy security and environmental protection systems, including geothermal, solar, district heating and cooling and water recycling.

Enforcement of Border Security — Recognizing the need to bolster resources for the enforcement of border security, the Committee encourages the Army National Guard and the Air National Guard to consider, design, and construct facilities adjacent to our southwestern border that will support National Guard activities and house and support defense assets used by Customs and Border Protection and other law enforcement agencies for the terrestrial maritime, and aerial surveillance of those borders, to include aircraft hangars suitable for unmanned aerial systems.

Senate Report 112-29

Army Guard Training Facilities —The need to reduce the Armywide backlog of 128,000 soldiers currently on the waiting list in the Non-Commissioned Officer Education System [NCOES] is crucial. Therefore, the Committee requests that the Department of the Army continue expansion and development of National Guard training facilities that service both active duty, guard and reserve members. Priority should be give to schools considered Centers of Excellence for critical military occupational specialties.

Army Guard Readiness Centers —The Committee is aware that approximately 40 percent of Army National Guard readiness centers are more than 50 years old. These facilities require renovation or replacement in order to meet the needs of training and maintaining a 21st century operational force. Unfortunately, DOD investment in Army Guard construction projects lags far behind the requirement. The Committee urges the Army to re-evaluate its investment plan for Army National Guard construction projects to ensure that all projects included in the Infrastructure Requirements Plan are maintained in the Future Years Defense Program.\
